Specification Summary

Brand	Union
Product type	Open Shackle

Product Description

The UNION 3122 Brass Open Shackle Padlock is a high-quality, UK-manufactured security solution designed for reliable everyday use. Featuring a solid brass body and a hardened steel shackle with a chrome finish, this padlock offers robust resistance against cutting and sawing.

This versatile padlock is available in multiple body widths (40mm and 50mm), weights (ranging from 270g to 390g), and keying configurations, including Keyed Alike and Keyed To Differ options. It can also be master-keyed or keyed alike as a special order to suit complex security setups. Please choose your preferred body width, keying option, weight, and barcode from the options below.

Equipped with a spring-loaded, snap-locking mechanism, the padlock requires a key to unlock but locks automatically when the shackle is pressed shut. The shackle is retained when open, preventing accidental loss. Backed by a 5-year manufacturer's guarantee, the UNION 3122 is a durable choice for securing gates, sheds, lockers, and more.

Technical Specifications

- **Brand:** UNION
- **Manufacturer Reference:** 3122

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
