Specification Summary

Brand	Union
Product type	Accessory

Product Description

The UNION 53036 Cylinder Guard (also known as a cylinder security rose) is designed to protect mortice screw-in cylinders from tampering and unauthorised manipulation. It is specifically suited for use with threaded cylinders, such as the UNION 2X11 mortice screw-in cylinder.

Constructed to provide an extra layer of physical security, this guard surrounds the cylinder face to deter and prevent tampering. It features a high-quality satin chrome finish, ensuring it blends seamlessly with modern commercial and domestic door hardware. With an external diameter of 41mm and an internal diameter of 29mm, it offers a precise fit for compatible cylinder profiles.

This cylinder guard is an ideal accessory for enhancing the security of doors utilising screw-in cylinder locks, commonly found on commercial metal doors and narrow stile locks.

Technical Specifications

- **Brand:** UNION
- **Manufacturer Reference:** 53036 (Part Number: 4790)
- **Finish:** Satin Chrome
- **External Diameter:** 41mm
- **Internal Diameter:** 29mm
- **Weight:** 40g
- **Compatibility:** Suitable for use with UNION 2X11 mortice screw-in cylinders

Key Features

- **Tamper Prevention:** Designed to help prevent tampering and forced manipulation of mortice screw-in cylinders.
- **Durable Finish:** Satin chrome finish offers a clean, modern aesthetic and excellent resistance to wear.
- **Precise Fit:** Features a 29mm internal diameter to snugly fit standard screw-in cylinder profiles.
- **Enhanced Security:** Provides an extra layer of physical protection around the cylinder face.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
