Product Description

The Union BGA series keys are classic security keys commonly used on metal doors, steel French windows, and metal casement or panel locks (often associated with Crittall doors). If you need a replacement or spare key, these are professionally cut to code using high-quality blanks and state-of-the-art machinery to ensure smooth, reliable operation.

To order, simply locate the code stamped on the head of your existing key or found under the fixed escutcheon on the lock itself. The standard code series ranges from BGA 101 to BGA 250. Enter your specific key code in the box provided and select the quantity you require.

Technical Specifications

- **Manufacturer:** Union
- **Key Series:** BGA series (BGA 101 to BGA 250)
- **Application:** Suitable for Union panel locks and metal casement doors (such as Crittall steel doors and windows)
- **Key Type:** Mortice key cut to code

Key Features

- **Accurate Code Cutting:** Professionally cut to code using precise, state-of-the-art key cutting machinery.
- **Easy Identification:** Key code is conveniently stamped on the original key head or located under the lock's escutcheon.
- **Reliable Replacement:** Ideal for replacing lost keys or creating spares for classic metal door and window locks.
- **Simple Ordering Process:** Just enter your unique BGA code and select the required quantity.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
