Brand	Union C-Series
Product type	Lever

Product Description

The UNION C-Series 1K21 Cruiser Lever Padlock (formerly renowned as the Chubb Cruiser) is a heavy-duty, close-shackle padlock designed to provide robust security for demanding applications. Proudly manufactured in the UK, this padlock features a heavy laminated steel body with recessed riveting to resist drill and torque attacks.

Its close-shackle design significantly limits shackle exposure, protecting it against cutting and sawing attempts. Additionally, the case-hardened steel shackle provides exceptional resistance to physical attacks. For enhanced security, the padlock is designed with an off-centre keyhole, which prevents the insertion of conventional keys or picking tools.

This padlock is equipped with a high-security 5-lever mechanism and is non-key retaining. It is available in Keyed to Differ and Keyed Alike configurations (including Keyed Alike - A and Keyed Alike - B options), with weights ranging from 940g to 950g. Please select your preferred keying option, weight, and barcode from the options below.

Technical Specifications
