Specification Summary

Brand	Union C-Series
Product type	Open Shackle

Product Description

The UNION C-Series 1K42 AVA Brass Open Shackle Padlock (formerly known as Chubb) is a high-security padlock designed to offer exceptional physical strength and pick resistance. Manufactured in the UK, this robust padlock features a solid brass body with a polished finish and a hardened steel open shackle, providing reliable protection for a wide range of security applications.

At the heart of the 1K42 is its renowned 10-disc AVA cylinder mechanism, which delivers excellent resistance against picking and manipulation. For added security, the padlock is key-retaining, meaning the key can only be withdrawn when the padlock is fully locked. This ensures the padlock is never left unlocked or vulnerable by accident. The hardened steel shackle is double-locking, providing superior resistance against pulling and twisting attacks.

Backed by a 10-year manufacturer's guarantee, this premium brass padlock is supplied keyed to differ in a boxed pack.

Technical Specifications

- **Brand:** UNION C-Series (formerly Chubb)
- **Model Reference:** 1K42
- **Body Width:** 50mm
- **Body Material:** Solid Brass
- **Finish:** Polished Brass
