Product Description

The UNION C-Series 3R35 Deadlocking Latch (formerly known as Chubb) is a high-security 5-detainer mortice nightlatch designed for timber doors where automatic slam-action locking is required. Featuring a robust detainer mechanism, this lock offers a significantly higher number of key combinations than standard lever locks, providing enhanced protection against lock picking and forced entry.

When the door is closed, the latch automatically deadlocks to secure the entrance. For convenience, a hold-back snib can be engaged to keep the latch withdrawn, allowing free passage when needed.

This lock is available in several configurations to suit your installation requirements. You can choose between the standard **3R35** model (where the handle can be locked from both sides) or the **3R35X** escape version, which disables handle locking on the inside to ensure unrestricted egress in an emergency.

These locks are handed and available in multiple finishes and specifications. Please select your required handing (Left Hand or Right Hand), finish (Polished Brass or Satin Chrome), and manufacturer reference (3R35, 3R35X, or 3R35X RH) from the options below.
