Product Description

The UNION Corridor Fire Door Kit (J-FDK-CORRIDOR) is a comprehensive, all-in-one hardware solution designed specifically for non-locking push/pull timber fire doors in commercial and public buildings. By supplying all the necessary, high-quality components in a single package, this kit eliminates the hassle of sourcing individual parts, saving you time and ensuring full compliance.

Perfect for busy corridors, the kit includes a CE3F rack and pinion door closer, three Grade 13 ball bearing hinges with matching intumescent kits, a 300mm D-shaped pull handle, a push plate, and essential 'Fire Door Keep Shut' signage. The components are manufactured from durable satin stainless steel, offering an attractive and long-lasting finish. Fully fire-tested, CE marked, and Certifire approved, this kit provides reliable fire door security and helps prevent the spread of fire by ensuring doors remain closed when not in use.

Technical Specifications

- **Manufacturer Reference:** J-FDK-CORRIDOR
- **Part Number:** L30316
- **Fire Rating:** 1/2 to 1 hour (FD30 and FD60 timber fire doors)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
