Specification Summary

Brand	Union
Product type	Tubular

Product Description

The UNION FastLatch Privacy Bathroom Tubular Latch Deadbolt is designed for exceptionally quick and easy installation, fitting up to three times faster than a standard latch. Ideal for both professional installers and DIY enthusiasts, its innovative round shape and push-fit design require minimal skill to achieve a flawless fit.

Engineered for use with a bathroom turn and emergency release utilising a 5mm square spindle, this privacy deadbolt features bolt-through fixing holes. This allows door furniture to be securely mounted, significantly reducing wear and tear on the door over time. The inclusion of side ribs and an integrated splinter guard ensures a tight, secure fit with no visible faceplate screws, providing a sleek, professional aesthetic.

To ensure maximum versatility, the latch is supplied complete with a choice of two strike plates: a round strike for new frame preparations and a square corner strike that is perfect for retrofitting.

This latch is available in multiple backsets, case depths, and high-quality finishes. Please select your required options from the selection below.

Technical Specifications

- **Brand:** UNION
- **Backset:** 44mm or 57mm (please select from the options below)
- **Case Depth:** 60mm or 73mm (please select from the options below)
- **Finish:** Polished Brass, Polished Chrome, or Satin Nickel (please select from the options below)
- **Forend Finish:** Polished Brass, Polished Chrome, or Polished Nickel (please select from the options below)
- **Spindle Size:** 5mm

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
