Specification Summary

Brand	Union
Product type	Miscellaneous

Product Description

The UNION GripSafe Anti Viral Door Handle Strips provide a simple, highly effective way to reduce the spread of bacteria, germs, and viruses in any building. Made from a copper-plated polyamide fleece, these self-adhesive strips leverage the natural antiviral, antibacterial, and fungicidal properties of copper to continuously sanitise high-touch door handles.

Independently tested by the Eurovir® hygiene laboratory, GripSafe has been proven to inactivate 99.98% of TGEV coronaviruses within just 60 minutes. This makes it an ideal, cost-effective hygienic solution for offices, schools, healthcare facilities, and public buildings.

Each pack contains 10 self-adhesive strips measuring 10cm x 8cm, which is sufficient for up to 5 door sets (covering both sides of the door). The strips are easy to install and can be easily cut down on-site to fit your specific handle dimensions.

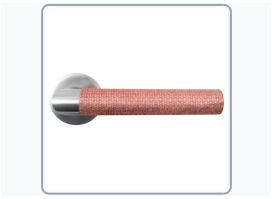

Technical Specifications

- **Brand:** UNION
- **Manufacturer Reference:** J-CT-10X8-SA
- **Material:** Copper-plated polyamide fleece
- **Adhesive:** Self-adhesive backing
- **Dimensions:** 10cm (Width) x 8cm (Height)
- **Thickness:** 1mm
- **Pack Quantity:** 10 strips (suitable for 5 door sets)
- **Standards:** Tested to ISO 18184:201409 Appendix G

Key Features

- **Antiviral Copper Technology:** Naturally inactivates 99.98% of TGEV coronaviruses within 60 minutes (tested by Eurovir® hygiene laboratory).
- **Antibacterial & Fungicidal:** Helps prevent the transmission of germs, bacteria, and fungi on high-touch surfaces.
- **Easy to Install:** Self-adhesive backing ensures quick, hassle-free application to clean door handles.
- **Customisable Fit:** Can be easily cut down on-site to fit different handle sizes and shapes.
- **Complete Pack:** Supplied in a pack of 10, providing coverage for up to 5 doors.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
