Specification Summary

Brand	Union
Product type	Tubular

Product Description

The UNION HD26 Dual Finish Heavy Duty Tubular Latch is a robust, high-performance latch designed to withstand the rigours of daily use in both commercial and residential environments. Built with a durable bevelled latch and a cast steel follower, this latch offers exceptional resistance to wear and tear.

This heavy-duty latch features a double-sprung mechanism that prevents handle drop and allows for universal handing, making it suitable for both left and right-handed doors. It is supplied as a dual-finish pack, containing both polished brass and stainless steel faceplates and adjustable strikes, giving you the flexibility to easily match your existing door hardware. Additionally, it is fully tested to BS EN 12209 and CE marked, making it suitable for use on 30 and 60-minute timber fire doors.

This latch is available in multiple configurations, including 70mm and 82mm case depths (with 45mm and 57mm backsets), a choice of radius or square forends, and either boxed or visi packaging. Please select your required specifications from the options below.

Technical Specifications

- **Brand:** Union
- **Backset:** 45mm or 57mm (please select from the options below)
- **Case Depth:** 70mm or 82mm (please select from the options below)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
