Product Description

The UNION J-ES-SL Essential 3 Lever Sashlock is a reliable, cost-effective mortice lock designed for internal timber doors where standard security is required. Part of UNION's Essential range, this sashlock offers excellent value for money without compromising on everyday performance and quality.

Engineered for easy retrofitting, it can be installed into many existing UK mortice cutouts without the need for additional carpentry or spoiling the edge of the door. This sashlock is available in multiple backset sizes (45mm or 58mm, with corresponding case depths of 64mm or 75mm) and finishes (Polished Brass or Chrome Plated), as well as different packaging options (Bagged or Visi). Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
