Specification Summary

Brand	Union
Product type	5 Lever

Product Description

The UNION J5D Trafalgar 5 Lever Rim Deadlock is a reliable, surface-mounted security solution designed for timber doors. Featuring a robust 5-lever mechanism, this lock provides dependable security for domestic and light commercial applications.

A key feature of the UNION J5D is its single-sided operation. The lock is operated by key from the outside only, with no keyhole or locking mechanism on the inside. This makes it particularly suitable for store cupboards, boiler rooms, and utility spaces, as it completely eliminates the risk of children or anyone else accidentally locking themselves inside.

Constructed with a durable grey-finished case, this lock is designed to withstand everyday wear and tear. It features a 45mm backset and a 100mm case depth, making it a straightforward choice for both new installations and retrofitting. The deadlock is supplied keyed to differ and comes complete with two keys and a 5-year manufacturer's guarantee.

Technical Specifications

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
