Specification Summary

Brand	Union
Product type	Cylinder - Euro Lock Case

Product Description

The UNION JL21EUS StrongBOLT Euro Deadcase is a high-quality, medium-security mortice deadlock case designed for use with Euro profile cylinders. It is an ideal choice for residential and commercial applications, particularly where integration into master key systems is required.

Engineered for durability and ease of installation, the StrongBOLT deadcase features a square faceplate combined with a radiused inner forend, allowing for straightforward fitting or hassle-free retrofitting into existing UK mortices. Security is enhanced by a 14mm deadbolt containing hardened steel pins to resist sawing attacks, alongside a chamfered bolt design that provides superior resistance against side-load force.

This deadcase is fully Certifire approved, CE marked, and fire-tested for up to 1 hour on timber doors, making it suitable for use on fire doors.

This product is available in multiple finishes, including Polished Brass and Stainless Steel, and with a choice of either a 45mm or 57mm backset (64mm or 75mm case depth). Please select your required finish and backset from the options below.

Technical Specifications

- **Mechanism:** Euro Cylinder
- **Backset:** 45mm or 57mm (please choose from the options below)
- **Case Depth:** 64mm or 75mm (please choose from the options below)
- **Case Height:** 88mm
- **Bolt Throw:** 14mm
- **Forend Length:** 134mm
- **Forend Width:** 26mm
- **Finish:** Polished Brass or Stainless Steel (please choose from the options below)
- **Handing:** Reversible
- **Fire Tested:** 1 Hour Timber (BS EN 1634-1)
- **Standards:** BS EN 12209:2003, Secured by Design, BS EN 1634-1, CE Marked, Certifire
- **Guarantee:** 10 Year Manufacturer's Guarantee
- **Weight:** 515g or 565g (please choose from the options below)

Key Features

- **Medium Security:** Ideal for domestic and commercial applications, including integration with master key systems.
- **Attack Resistant:** Hardened steel pins within the deadbolt provide robust protection against sawing attacks.
- **Chamfered Deadbolt:** Designed to increase performance and resistance against side-load force.
- **Easy Installation:** Features a square faceplate and radius inner forend for simple retrofitting and first-fit installation.
- **Fire Door Suitable:** Certifire approved and CE marked, suitable for use on timber fire doors for up to 60 minutes.
- **Reversible Design:** Suitable for both left and right-handed doors.
- **Multiple Options:** Available in two finishes and two backset sizes to suit your specific door requirements (please select below).

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
