Specification Summary

Brand	Union
Product type	Cylinder - Euro

Product Description

The UNION L2049 Horizontal Euro Sashcase is a premium, UK-manufactured mortice lock designed for use with a Euro profile cylinder. Offering a classic horizontal configuration, it is ideal for traditional timber door installations where extra distance is required between the door edge and the handle.

This robust sashlock features a reversible latch bolt, making it suitable for both left and right-handed doors. The latch bolt is easily operated by a knob or a sprung lever handle from either side, while the deadbolt is thrown by turning the key in a compatible Euro cylinder. It is also pierced to accept bolt-through door furniture for a secure and clean installation.

The UNION L2049 is EN 1634-1 approved for use on 60-minute timber fire doors, providing peace of mind alongside its impressive 10-year manufacturer's guarantee.

This product is available in multiple finishes, including Polished Lacquered Brass and Satin Chrome, with different barcodes depending on your selection. Please choose your preferred options from the selection below.

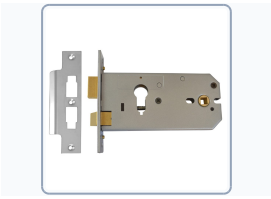

Technical Specifications

- **Brand:** UNION
- **Model / Manufacturer Reference:** L2049
- **Case Depth:** 152mm
- **Case Height:** 70mm
- **Backset:** 127mm
- **Centres:** 76mm
- **Bolt Throw:** 12.5mm
- **Spindle:** 8mm
- **Forend Dimensions:** 121mm (Length) x 25.5mm (Width)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
