Specification Summary

Brand	Union
Product type	Cylinder - Euro Lock Case

Product Description

The UNION L2144E Euro Deadcase is a high-quality, durable euro profile mortice deadlock case designed for timber doors up to 54mm thick. Supplied as a case-only option, it allows you to easily integrate or reuse an existing Euro profile cylinder, saving you the hassle of changing keys.

This robust lock case features a 20mm deadbolt equipped with hardened steel rollers to provide excellent resistance against physical attacks. It is assessed to EN 1634-1 standards for use on 60-minute timber fire doors, making it a reliable choice for both residential and commercial applications. The lock also comes complete with a security box striking plate for added protection.

To suit your specific door requirements, this deadcase is available in multiple configurations. You can choose between 44mm or 57mm backsets (with corresponding case depths of 67mm or 80mm) and select either a Polished Lacquered Brass or Satin Chrome finish. Please select your preferred backset, case depth, and finish from the options below.

Technical Specifications

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
