Specification Summary

Brand	Union
Product type	Cylinder - Euro & Oval

Product Description

The UNION L2214 Oval Sashcase is a robust, narrow-profile mortice lock case specifically designed for use on metal doors, such as aluminium shopfronts and steel composite doors. With its compact 30.5mm backset and 50mm case depth, it is the ideal choice for narrow-stile door profiles where installation space is limited.

This sashcase is designed to be operated by an oval profile cylinder (sold separately) and is fully compatible with unsprung lever handles. It features a reversible latchbolt, making it suitable for both left and right-hand hung doors.

The lock operates with a secure and intuitive mechanism: one full turn of the key locks the deadbolt, while one full turn of the key followed by depressing the lever handle unlocks it. For added convenience, the latchbolt can also be withdrawn directly using the key.

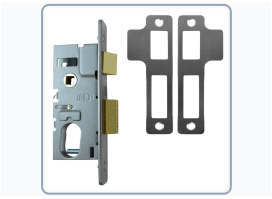

Technical Specifications

- **Brand:** Union
- **Model:** L2214
- **Backset:** 30.5mm
- **Case Depth:** 50mm
- **Case Height:** 108mm
- **Case Width:** 47mm
- **Centres:** 48mm
- **Faceplate Width:** 22mm
- **Finish:** Satin Chrome
- **Bolt Throw:** 11.5mm
- **Mechanism:** Oval Cylinder (cylinder not included)
- **Operation:** Latch & Deadbolt (reversible latchbolt)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
