Specification Summary

Brand	Union
Product type	Cylinder - Euro & Oval

Product Description

The UNION L2224 Euro Sashcase is a compact and reliable mortice lockcase designed specifically for metal doors, making it a popular choice for aluminium and steel door installations. This single-spindle sashcase features a latch and deadbolt configuration, offering standard sashlock operation where the deadbolt is operated by a Euro profile cylinder (sold separately) and the latchbolt is operated by the handle. For added convenience, the latchbolt can also be withdrawn by a full turn of the key.

This sashcase is highly versatile and accommodates unsprung lever handles. It features an easily reversible latch bolt, allowing for quick on-site handing. Simply remove the screw at the rear of the latch through the back of the case, flip the latch to the opposite hand, and refit the screw.

Please note that this product is supplied with a strike plate only; fixings and the Euro cylinder are not included.

Technical Specifications

- **Backset:** 30.5mm
- **Centres:** 48mm
- **Case Depth:** 50mm
- **Case Height:** 108mm
- **Case Width:** 47mm
- **Faceplate Width:** 22mm

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
