Specification Summary

Brand	Union
Product type	Cylinder - Euro

Product Description

The UNION L2244E Euro Sashcase is a high-quality, UK-manufactured euro profile mortice sashlock case. Designed for use with a standard euro profile cylinder (sold separately), it is ideal for both residential and commercial timber doors. This lockcase is assessed to EN 1634-1 for use on 60-minute timber fire doors, making it a reliable choice for fire-rated installations.

It features a reversible latch bolt, allowing for easy handing on both left and right-hinged doors. The 20mm deadbolt throw provides secure positive deadlocking and enhanced resistance against physical attack. Additionally, the case is pierced to accept bolt-through door furniture, allowing for secure installation of handles.

This sashcase is available in multiple backset sizes (45mm or 57.5mm) and case depths (67mm or 79.5mm), with a choice of Polished Lacquered Brass or Satin Chrome finishes to match your existing hardware. Please select your preferred options from the drop-down menu below.

Technical Specifications

- **Brand:** Union
- **Manufacturer Reference:** L2244E
- **Mechanism:** Euro Cylinder (cylinder sold separately)
- **Backset:** 45mm or 57.5mm (please choose from the options below)
- **Case Depth:** 67mm or 79.5mm (please choose from the options below)
- **Case Height:** 109mm
- **Centres:** 47.5mm

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
