Specification Summary

Brand	Union
Product type	Nightlatches

Product Description

The UNION L2341 Oval Nightlatch Case is a robust, high-quality mortice nightlatch designed for use with an oval profile cylinder (supplied separately). It is ideal for timber doors requiring automatic deadlocking, ensuring the door is secured as soon as it is closed. The latchbolt is automatically locked against end pressure by an anti-thrust bolt for enhanced security.

This lock is operated by an oval cylinder from the outside and a sprung lever handle or turn from the inside. For added convenience, the latchbolt is easily reversible without opening the lock case, using a special key. It also features a hold-open function, allowing the latch to be held in the withdrawn position using the key provided.

This nightlatch case is EN 1634-1 assessed for use on 60-minute timber fire doors and comes with a 10-year manufacturer's guarantee. It is available in multiple finishes, including Polished Lacquered Brass and Satin Chrome, with matching forends and unique barcodes. Please select your preferred finish and barcode options from the selection below.

Technical Specifications

- **Case Depth:** 77mm
- **Backset:** 57mm
- **Case Height:** 129mm
- **Centres:** 48mm
- **Follower:** 8mm (One Way Action)
- **Forend Dimensions:** 180mm (Length) x 25mm (Width)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
