Specification Summary

Brand	Union
Product type	Intumescent Strips & Seals

Product Description

The UNION StrongBOLT Intumescent Deadlock Kit is designed to protect door ironmongery and prevent the spread of fire. An essential component for fireproofing timber doors, this kit is FD30/FD60 fire tested, offering up to an hour of protection. In the event of a fire, the high-performance flexible intumescent sheet expands to many times its original volume. This action seals the gap around the lockcase, preventing heat transfer and preserving the integrity of the door.

Engineered specifically for UNION StrongBOLT non-British Standard deadlocks, this pre-cut kit is exceptionally easy to install. The ultra-thin, flexible graphite material is only 0.8mm thick, requiring minimal rebating. It features a convenient self-adhesive backing, allowing for quick and precise application directly to the lock without the mess of fibrous alternatives.

Technical Specifications

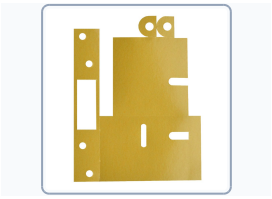

- **Brand:** UNION
- **Manufacturer Reference:** KIT 30/60FD J-STRONGBOLT-DL-IK
- **Part Number:** L30531
- **Fire Rating:** FD30 / FD60 (30 to 60 minutes)

- **Material:** Flexible graphite (0.8mm thickness)
- **Compatibility:** UNION StrongBOLT non-British Standard deadlocks
- **Suitable Door Type:** Timber doors
- **Pack Quantity:** 1
- **Weight:** 20g

Key Features

- **Fire Protection:** Expands to many times its original volume under heat to seal gaps and prevent the passage of fire
- **Tailored Fit:** Pre-cut specifically for UNION StrongBOLT non-BS deadlocks to ensure complete coverage
- **Easy Installation:** Self-adhesive backing allows for quick, clean, and hassle-free application
- **Minimal Rebating:** Ultra-thin 0.8mm profile means minimal wood removal is required during fitting
- **Safe Handling:** Flexible graphite material contains no fibres or irritants, making it clean and safe to handle

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
