Specification Summary

Brand	Union
Product type	Intumescent Strips & Seals

Product Description

The UNION StrongBOLT Intumescent Sashlock Kit is designed to maintain the fire integrity of timber doorsets when fitting morticed ironmongery. When a door is morticed to fit a lock, the fire resistance of the door can be compromised. This kit provides essential protection by sealing the lock area in the event of a fire.

Manufactured from a high-performance, ultra-thin (0.8mm) flexible graphite material, the intumescent sheet features a self-adhesive backing for quick and easy application directly to the lockcase. In the event of a fire, the material expands to many times its original volume, filling any gaps around the sashlock to prevent the passage of fire and heat transfer.

This kit is specifically designed to suit non-BS UNION StrongBOLT Sashlocks and is fully fire tested for use on 30-minute (FD30) and 60-minute (FD60) timber fire doors.

Technical Specifications

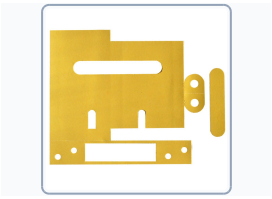

- **Brand:** UNION
- **Manufacturer Reference:** KIT 30/60FD J-STRONGBOLT-SL-IK
- **Compatibility:** Suits non-BS UNION StrongBOLT Sashlocks
- **Fire Rating:** FD30 / FD60 (30 minutes to 1 hour)

- **Material Thickness:** 0.8mm
- **Backing:** Self-adhesive
- **Suitable Door Type:** Timber doors
- **Pack Quantity:** 1

Key Features

- **Fire Barrier Protection:** Expands to many times its original volume in a fire, sealing the gap around the lock to prevent the spread of flames and heat.
- **Ultra-Thin Profile:** Only 0.8mm thick, requiring minimal rebating to preserve the door's strength.
- **Self-Adhesive Backing:** Quick and easy to apply directly to the lockcase during installation.
- **Safe to Handle:** Made from a flexible graphite material that contains no fibres or irritants.
- **Timber Door Approved:** Specifically tested for use on 30-minute (FD30) and 60-minute (FD60) timber fire doors.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
