Specification Summary

Brand	Union
Product type	6 Lever

Product Description

The UNION Wellington 4G 6 Lever Sashlock is a high-quality, UK-manufactured mortice lock designed primarily for residential and sheltered accommodation. It offers reliable security and convenient operation, featuring key entry from the outside and a thumbturn on the inside, with the latch bolt operated by lever handles.

Please note that this sashlock is handed and not reversible, meaning you must specify the correct hand for your door when ordering. It is available in multiple configurations to suit your installation needs. You can choose the standard lock-only version (4G), which is supplied without a thumbturn and escutcheon, or the complete lockset (4GB), which comes supplied with a thumbturn, escutcheon, and Wellington lever handles.

We offer a range of options for this lock, including different handings (Left Hand or Right Hand), weights (ranging from 900g to 1.24kg), manufacturer references, and package contents (with or without the thumbturn, escutcheon, and handles). Please select your required options from the choices below.

Technical Specifications

- **Brand:** Union
- **Mechanism:** 6 Lever
- **Backset:** 51mm
- **Case Depth:** 78mm
- **Case Height:** 122mm
- **Centres:** 57mm

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
