Specification Summary

Brand	Vanderbilt Industries
Product type	Vanderbilt

Product Description

The Vanderbilt Industries K44 Duo is a highly versatile, standalone programmable codelock designed to control one or two doors. Built with a robust housing and stainless steel buttons, this durable keypad is weather-resistant, making it suitable for both indoor and outdoor installations.

With a total capacity of 30 codes - comprising twenty 4-digit codes and ten 6-digit codes - the K44 Duo offers flexible access control. Programming is completed directly via the keypad, removing the need for an external controller. Its dual-relay outputs allow you to manage two doors independently, set separate or matching codes for each, or activate a secondary function such as lighting or an alarm.

For enhanced security and ease of use, the keypad features backlit buttons for low-light visibility, non-volatile memory to protect programmed settings during power loss, and an integrated tamper switch.

Technical Specifications

- **Brand:** Acre / Vanderbilt Industries
- **Manufacturer Reference:** V44 DUO SS (K44 Duo)
- **Input Voltage:** 12/24V AC/DC
- **Current Consumption:** 0.15A

- **Relay Rating:** 1 Amp Max @ 12/24V AC/DC
- **Code Capacity:** 30 codes (20 x 4-digit, 10 x 6-digit)
- **Code Length:** 4 to 6 digits
- **Door Open Time:** 1 to 99 seconds
- **Dimensions:** 140mm (H) x 80mm (W) x 40mm (D)
- **Weight:** 750g
- **Finish:** Stainless Steel
- **Weather Resistant:** Yes
- **Programming:** Standalone via keypad (no controller required)
- **Connections:** Terminals
- **Audible & Visual Indication:** Yes

Key Features

- **Dual Door Control:** Two relay outputs allow independent control of two doors, or a single door with an auxiliary function (such as lighting or alarm output).
- **Flexible Code Options:** Supports up to 30 user codes with a mix of 4-digit and 6-digit lengths.
- **Backlit Keypad:** Illuminated buttons ensure easy operation in low-light or nighttime conditions.
- **Standalone Operation:** Fully programmable directly via the keypad with no external controller required.
- **Robust Construction:** Features a durable stainless steel finish and weather-resistant design suitable for indoor or outdoor use.
- **Non-Volatile Memory:** Retains all programmed codes and settings in the event of a power failure.
- **Integrated Tamper Switch:** Offers enhanced security when combined with an alarm or security unit.
