Product Description

The WILKA 1026088 Strike Plate is a genuine replacement accessory designed specifically to suit Wilka 138F locks. Engineered to the high standards expected of Wilka products, this strike plate provides a secure and reliable finish for your door installation.

Featuring a fully reversible design, it is suitable for both left and right-handed doors, offering excellent versatility during installation. It comes in a high-quality Satin Chrome finish, ensuring it blends seamlessly with modern door hardware and maintains a clean, professional appearance. With a height of 95mm and screw centres at 75mm, it is designed for a precise fit and straightforward installation.

Whether you are replacing an existing worn strike plate or completing a new installation with a Wilka 138F series lock, this genuine accessory ensures optimal compatibility and smooth latch operation.
