Specification Summary

Brand	Willenhall Locks
Product type	5 Lever

Product Description

The Willenhall Locks G10 5 Lever Gatelock is a robust and reliable security solution specifically designed for external gates. Featuring a high-security 5-lever mechanism, this gatelock provides dependable protection against unauthorised access.

Constructed with a durable satin brass finish, the G10 features a hook bolt to resist prising attacks, alongside a steady bolt that prevents the gate from being lifted to release. It can be conveniently locked and unlocked from either side using the key, making it ideal for both domestic and commercial gate installations.

The lock has a compact 38mm backset and a 68mm case depth, making it suitable for narrow stile gates. It is supplied keyed to differ with two keys. For enhanced installation security, an optional steel locking box (catchbox) is also available separately.

Brand Profile

Willenhall Locks

Willenhall Locks is a trade-familiar UK lock brand built around the classic **mortice lock** lineup: **5-lever deadlocks**, **sashlocks**, and a handful of **specialist cases** for awkward door types (plus some gate kit). The branding leans into Willenhall's identity as the historic heartland of British lockmaking, and retailers commonly describe the range as being supplied for **50+ years**.

What you typically see under the Willenhall name:

- **Mortice deadlocks & sashlocks** (often 5-lever) for domestic/commercial doors.
- **Narrow-stile / euro sashcases** for glazed and French doors (e.g. the **EP1 Euro Sashcase**, which is explicitly pitched as a narrow-stile solution).
- **Gate locks** using **hook bolt** formats (Aldridge lists models like **G10 / G14 / G17** as 5-lever gate locks).
- Some sellers also group in **slamlock**-type products under the Willenhall label (auto-locking on close—great for security, occasionally *too* great if you enjoy being locked out of your own life).
