Specification Summary

Brand	Willenhall Locks
Product type	5 Lever

Product Description

The Willenhall G8 5 Lever Gatelock is a robust, high-security hookbolt lock specifically designed to secure external gates. Its standout security feature is the integrated 'steady' bolt, which prevents the gate from being lifted upwards to release the hook, offering excellent protection against forced entry.

Constructed with a durable satin brass finish on both the case and forend, this lock is operated by key from either side, ensuring convenient access control. It features a 38mm backset, a 68mm case depth, and a reliable 5-lever mechanism. The lock is supplied keyed to differ with two keys as standard, while keyed alike (KA) and master keyed (MK) options are available as special orders. An optional steel locking box (catchbox) can also be purchased separately to provide a secure housing for the lock bolt, ensuring a neat and stable installation on timber or metal

gates.

Technical Specifications

- **Brand:** Willenhall Locks
- **Mechanism:** 5 Lever
- **Backset:** 38mm
- **Case Depth:** 68mm
- **Case Height:** 110mm
- **Case Width (Depth):** 18mm

Brand Profile

Willenhall Locks

Willenhall Locks is a trade-familiar UK lock brand built around the classic **mortice lock** lineup: **5-lever deadlocks**, **sashlocks**, and a handful of **specialist cases** for awkward door types (plus some gate kit). The branding leans into Willenhall's identity as the historic heartland of British lockmaking, and retailers commonly describe the range as being supplied for **50+ years**.

What you typically see under the Willenhall name:

- **Mortice deadlocks & sashlocks** (often 5-lever) for domestic/commercial doors.
- **Narrow-stile / euro sashcases** for glazed and French doors (e.g. the **EP1 Euro Sashcase**, which is explicitly pitched as a narrow-stile solution).
- **Gate locks** using **hook bolt** formats (Aldridge lists models like **G10 / G14 / G17** as 5-lever gate locks).
- Some sellers also group in **slamlock**-type products under the Willenhall label (auto-locking on close—great for security, occasionally *too* great if you enjoy being locked out of your own life).
