Specification Summary

Brand	Yale
Product type	Straight

Product Description

The Yale 076 Cylinder Straight Cupboard Lock is a reliable, high-quality deadlock designed to secure wooden cupboard doors, drawers, and tills. Operated by a key, this straight cupboard lock provides robust security for residential or commercial furniture, ensuring your valuable items remain safe and restricted.

This lock features a 4-pin cylinder mechanism offering up to 1,000 key differs, and is supplied keyed to differ with two keys. It is designed for screw-in fixing on the back of the door or drawer, and comes complete with a cylinder rose and fixing screws for a straightforward installation. With a 22mm cylinder projection, this lock is suitable for cupboard doors and drawers with a material thickness of up to 19mm.

Available in multiple finishes, including Polished Brass and Satin Chrome, you can choose the perfect option to match your existing cabinet hardware. Please select your preferred finish and barcode option from the options below.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
