Specification Summary

Brand	Yale
Product type	Screw In

Product Description

The Yale 1133 Screw-In Cylinder is a high-quality threaded cylinder designed specifically for use with narrow-stile mortice metal door locks, including Adams Rite and other similar lockcases. Featuring a robust 5-pin mechanism, this cylinder provides secure and reliable key access from one side of the door.

Finished in a sleek Satin Chrome, this cylinder is available in multiple configurations to suit your security requirements. Depending on your needs, you can choose between a single cylinder supplied with 2 keys or a pair of cylinders supplied with 4 keys. Keying options also vary, with both standard in-house and stocked keying options available. This product is available in different pack quantities, weights, and barcodes - please select your preferred configuration from the options below.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
