Specification Summary

Brand	Yale
Product type	Sliding Shackle

Product Description

The Yale 114B Brass Shutter Padlock is a robust security solution designed for both indoor and outdoor applications, such as securing shutter doors, gates, and garages. Featuring a solid brass body and a hardened steel shackle, it offers high resistance against cutting, twisting, and pulling attacks.

This padlock has been rigorously tested to BS EN 12320:2012 standards and subjected to 96 hours of corrosion resistance testing, ensuring reliable performance in harsh weather conditions. It also features an increased shackle clearance to accommodate a wider variety of locking applications. Tested to 10,000 opening and closing cycles, it is built for long-lasting durability and is supplied complete with 3 keys.

Available in multiple sizes, you can choose from body widths of 60mm or 70mm, body heights of 54mm or 59mm, body depths of 18mm or 20mm, and shackle diameters of 9mm or 10mm, with weights ranging from 345g to 500g. Please select your preferred size, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Standards:** BS EN 12320:2012
- **Body Material:** Solid brass
- **Shackle Material:** Hardened steel
- **Body Width:** 60mm or 70mm (please choose from the options below)
- **Body Height:** 54mm or 59mm (please choose from the options below)
- **Body Depth:** 18mm or 20mm (please choose from the options below)
- **Shackle Diameter:** 9mm or 10mm (please choose from the options below)
- **Weight:** 345g or 500g (please choose from the options below)
- **Keys Supplied:** 3 keys
- **Manufacturer Reference:** Y114B/60/114/1 or Y114B/70/113/1 (please choose from the options below)
- **Barcode:** 5052847099643 or 5052847099650 (please choose from the options below)

Key Features

- **Hardened Steel Shackle:** Designed to prevent cutting, twisting, and pulling attacks.
- **Solid Brass Body:** Offers robust protection and durability.
- **Corrosion Resistant:** Tested up to 96 hours for reliable performance in outdoor environments.
- **Generous Shackle Clearance:** Larger clearance allows for broader locking applications.
- **Extensively Tested:** Cycle tested up to 10,000 cycles to ensure long-term reliability.
- **Supplied with 3 Keys:** Ready for immediate use with spare keys included.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
