Specification Summary

Brand	Yale
Product type	2 Lever

Product Description

The Yale 401 2 Lever Double Handed Rimlock is a traditional surface-mounted rim sashlock designed for standard internal and low-security external applications. It is ideal for use on internal doors, garden gates, sheds, and outbuildings where a mortice lock installation is not practical.

This versatile lock features a non-handed, reversible design with a two-way keyhole, allowing it to be mounted either way up without the need for complex re-handing. The latchbolt is operated by rim knob furniture from either side, while the 2-lever deadbolt is thrown and withdrawn by the key from both the inside and outside.

Supplied in a classic grey finish, the lock comes complete with a matching staple and two keys. It is designed to be fitted directly to the surface of the door, making it a popular choice for both traditional and rustic properties.

Technical Specifications

- **Case Depth:** 138mm
- **Case Height:** 76mm
- **Case Width:** 25mm
- **Backset (to keyhole):** 42mm
- **Backset (to spindle):** 106mm

- **Bolt Throw:** 13mm
- **Spindle Size:** 8mm
- **Mechanism:** 2 Lever
- **Finish:** Grey
- **Handing:** Reversible / Non-handed
- **Keys Supplied:** 2

Key Features

- **Versatile Application:** Ideal for internal doors, sheds, outbuildings, and wooden gates.
- **Double Handed Design:** Reversible latch and two-way keyhole allow for easy installation on both left and right-handed doors.
- **Dual Operation:** Latchbolt is operated by rim knobs (sold separately) and the deadbolt is operated by key from either side.
- **Surface Mounted:** Easy to install directly onto the door face without needing to mortice the door.
- **Peace of Mind:** Supplied with a 2-year manufacturer's guarantee.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
