Specification Summary

Brand	Yale
Product type	2 Lever

Product Description

The Yale 402 2 Lever Rim Deadlock is a reliable and compact security solution designed specifically for low-level security applications, such as sheds, gates, and internal doors. Featuring a narrow case design, this rim deadlock is ideal for installations where space is limited or where a simple, effective locking mechanism is required.

With no latch mechanism, the deadbolt is operated entirely by key from both sides of the door, offering straightforward and dependable operation. It is suitable for both left and right-hand hung doors, providing excellent versatility. Finished in a classic grey, it blends seamlessly with standard wooden outbuildings and interior doors.

This lock is supplied in visual packaging (Visi) and comes complete with two keys. It is keyed to differ, ensuring unique keying for your peace of mind, and is backed by a 2-year manufacturer's guarantee.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
