Specification Summary

Brand	Yale
Product type	Deadlocking

Product Description

The Yale 723 Traditional Deadlocking Nightlatch is a compact, narrow-stile security solution designed for doors where space is limited. Featuring a 40mm backset, this classic rim lock is ideal for timber doors and provides reliable, everyday security.

Operation is straightforward: the latchbolt is withdrawn by the lever handle from the inside and by the key from the outside. For added security, the latchbolt can be deadlocked from the outside with a full turn of the key, or deadlocked internally using the integrated snib button. The snib also allows the latch to be held back in the open position, preventing accidental lockouts.

This nightlatch is highly versatile, featuring an easily reversible latchbolt to suit both left and right-handed doors. It is supplied with a classic Yale 1109 5-pin rim cylinder in a polished brass finish, a robust green-finished case, and two keys.

Technical Specifications

- **Backset:** 40mm
- **Case Finish:** Green
- **Cylinder Finish:** Polished Brass

- **Cylinder Type:** Yale 1109 5-pin rim cylinder
- **Keys Supplied:** 2
- **Weight:** 540g

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
