Specification Summary

Brand	Yale
Product type	Rollerbolt

Product Description

The Yale 81 Rollerbolt Nightlatch is designed for doors where a simple push/pull action is required without the risk of accidental lockouts. This makes it an ideal choice for flat entrance doors, communal areas, and multi-occupancy properties.

The clever rollerbolt design allows the door to be pushed or pulled open when unlocked. For security, the rollerbolt also functions as an extended-throw deadbolt that can be locked or unlocked from both sides. From the inside, the lock is operated via a convenient turn handle, while key operation is used from the outside.

This nightlatch features a 60mm backset and a durable Dull Metal Grey case finish. It is available in multiple configurations, including a "Case Only" option or as a complete kit supplied with a Yale 1109 5-pin cylinder and 2 keys. Depending on your choice, the cylinder finish is available in Polished Brass or Satin Chrome, with weights ranging from 860g to 970g. Please select your preferred cylinder finish, package option, weight, and barcode from the options below.

Technical Specifications

- **Backset:** 60mm
- **Case Finish:** Dull Metal Grey
- **Cylinder Finish:** Polished Brass or Satin Chrome (please choose from the options below)

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
