Specification Summary

Brand	Yale
Product type	Open Shackle

Product Description

The Yale 850 & 870 Open Shackle Bronze Padlocks are heavy-duty, highly durable security solutions designed to withstand harsh outdoor environments. Featuring a solid bronze body, these padlocks offer exceptional corrosion resistance, making them ideal for marine, industrial, and utility applications - including anti-sparking environments.

Equipped with a hardened steel, spring-loaded shackle, these padlocks provide robust resistance against cutting and physical attacks. The double-locking mechanism ensures a secure, two-point lockup, while the key-retaining feature guarantees that the key can only be removed when the padlock is fully locked, preventing accidental unlock states.

These padlocks are available in multiple body widths (50mm for the 850 model and 64mm for the 870 model), with options for Keyed To Differ or Keyed Alike (including the Midlands Electricity Board - MEB specification). They are supplied with 2 keys and can be purchased in boxed or loose packaging. Please select your preferred body width, keying option, and packaging from the options below.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** 850 or 870
- **Body Material:** Bronze
- **Shackle Material:** Hardened steel
- **Body Width:** 50mm or 64mm
- **Keying Options:** Keyed To Differ or Keyed Alike (including Midlands Electricity Board / MEB specification)
- **Keys Supplied:** 2
- **Weight:** 560g or 730g
- **Packaging:** Boxed or loose

Key Features

- **High Corrosion Resistance:** Solid bronze body is ideal for outdoor, marine, and anti-sparking environments
- **Key Retaining:** Key can only be withdrawn when the padlock is fully locked for enhanced security
- **Sprung Shackle:** Hardened steel open shackle with a double-locking, snap-to-lock action
- **Versatile Options:** Available in multiple sizes and keying configurations to suit your requirements

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
