Specification Summary

Brand	Yale
Product type	Non Deadlocking

Product Description

The Yale 91 Non-Deadlocking Nightlatch is a modern, reliable rim lock designed specifically for applications where deadlocking is not required or could pose a safety risk, such as on hotel doors, communal areas, or internal doors. It features a 60mm backset and a fully reversible latchbolt, making it incredibly versatile and easy to install on-site for both left and right-handed doors.

A key safety feature of the Yale 91 is that it cannot be deadlocked from the inside. This ensures that entry can always be gained from the outside using the key, preventing accidental lockouts and ensuring emergency access is never compromised. The internal lever handle easily withdraws the latchbolt from the inside, while the snib button allows the latch to be held back in the open position when required.

This nightlatch is available as either a complete boxed set (including a 5-pin cylinder in a polished brass finish) or as a case-only option for quick replacements. It is offered under multiple barcode options; please select your preferred configuration from the choices below.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** 91
- **Backset:** 60mm
- **Case Finish:** Dull Metal Grey
- **Cylinder Finish:** Polished Brass (on complete models)
- **Cylinder System:** Yale 5-pin (on complete models)
- **Keying:** Keyed to differ (complete models)

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
