Product Description

The Yale Cam Bar (CAMBAR A) is a dedicated accessory designed specifically to suit the Yale S236 Nut Fix Cam Lock. Since these cam locks are often supplied without a cam bar, this high-quality component is essential for completing your installation or replacing an existing part.

Measuring approximately 42mm to 43mm in length, this sturdy metal cam bar ensures a secure and reliable locking engagement. It is supplied as a single, loose item, making it a straightforward and cost-effective solution for locksmiths, maintenance professionals, and DIYers looking to restore or configure their cabinet and locker security.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** CAMBAR A (Part Number: 3062)
- **Compatibility:** Designed specifically to suit the Yale S236 Nut Fix Cam Lock
- **Length:** 43mm (42mm functional length)
- **Weight:** 110g
- **Pack Quantity:** 1
- **Packaging:** Loose

- **Barcode:** 5055120650043

Key Features

- **Perfect Compatibility:** Engineered by Yale to fit the S236 nut-fix cam lock seamlessly.
- **Durable Construction:** Built to withstand regular daily use in lockers, cabinets, and cupboards.
- **Easy Replacement:** Ideal for replacing lost, damaged, or worn-out cam bars without needing to replace the entire lock mechanism.
- **Convenient Loose Packaging:** Supplied individually as a single cam bar to suit your specific project requirements.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
