Product Description

Get genuine Yale Platinum 3-star replacement keys, precision-cut on original Yale Platinum blanks. As Registered Master Locksmiths, we provide a secure and reliable online key cutting service to ensure your spare keys work smoothly and reliably.

To order, simply enter your unique D, E, and F codes from your key code card into the provided box (for example: 'D 1234 E 1234 F 1234').

Important Compatibility Note: Please check your key code card carefully before ordering. This service is exclusively for codes starting with **D, E, and F**. If your code begins with **PD, PE, or PF**, these are different key profiles and will not work. Please ensure you order the correct PD/PE/PF key cutting service instead.

For your security, all keys are dispatched via Secure Recorded Delivery. We highly recommend having your keys delivered to an alternative address (such as a work address or a friend's house) rather than the address where the lock is installed.

Technical Specifications

- **Brand:** Yale
- **Key Type:** Genuine Yale Platinum 3-Star key
- **Key Blank:** Original Yale Platinum blanks
- **Code Prefix Compatibility:** D, E, and F prefixes only (not compatible with PD, PE, PF prefixes)

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
