Specification Summary

Brand	Yale
Product type	3 Lever

Product Description

The Yale PM320 3 Lever Sashlock provides a standard level of security, making it an ideal choice for internal wooden doors. Designed for use with lever handles, this mortice sashlock features a latchbolt operated from either side and a deadbolt that can be locked or unlocked by key from either side.

This lock is engineered for versatility and ease of installation, featuring a fully reversible latchbolt to accommodate both left and right-handed doors. It is equipped with an 8mm spindle follower, making it suitable for use with unsprung lever handles. For added security, the lock incorporates a 13mm anti-saw deadbolt.

Available in multiple sizes, weights, and configurations, please select your preferred backset, case depth, weight, and barcode from the options below to find the perfect fit for your door.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
