Specification Summary

Brand	Yale
Product type	3 Lever

Product Description

The Yale PM322 is a standard security 3-lever mortice deadlock, ideal for use on internal wooden doors where privacy or basic security is required. The deadbolt is easily locked and unlocked by key from either side, providing convenient access control for residential and light commercial applications.

This robust mortice lock is supplied complete with matching escutcheons, fixing screws, and two keys, ensuring you have everything needed for a straightforward installation. It features a durable polished brass finish on the forend and matching escutcheons, blending seamlessly with traditional timber doors.

With a 64mm case depth and a 45mm backset, the Yale PM322 offers a compact footprint, making it a reliable and practical choice for retrofitting or new installations on internal timber doors.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
