Is Cylinder

Product Description

The Yale AS Series Euro Profile half cylinder is designed to provide robust protection against common lock attack methods. Offering British Kitemarked TS007:2012 1-star security, this cylinder has been rigorously tested to BS EN 1303:2005 standards to ensure reliable performance.

Engineered with advanced protective features, the AS Series is designed to strengthen the cylinder body, making it significantly harder for intruders to grip and snap. This half euro cylinder is ideal for use on doors that require locking from one side only, such as garage doors, fire doors, and stockrooms. It is suitable as a high-security replacement cylinder for PVCu, timber, and composite doors.

Approved by the police-led initiative Secured by Design, this cylinder provides peace of mind and excellent resistance against physical and manipulation attacks. It features a 6-pin mechanism and is supplied with three keys as standard.

Technical Specifications

- **Brand:** Yale
- **Cylinder Type:** Half Euro profile
- **Cylinder System:** Yale AS Series
- **Overall Length:** 45mm
- **Cylinder Size with Cam:** 35/10 (35mm to centre of cam)
- **Mechanism:** 6-pin
- **Finish:** Polished Brass
- **Security Standards:** British Kitemarked TS007:2012 1 Star, tested to BS EN 1303:2005
- **Secured by Design:** Yes
- **Fire Tested:** Grade 0
- **Keying:** Keyed to differ
- **Keys Supplied:** 3

Key Features

- **Snap Resistant Design:** Developed with protective features to strengthen the cylinder, making it harder to grip and protecting against cylinder snapping.
- **Secured by Design:** Police approved specification, recommended for doors requiring high-level security.
- **TS007 1-Star Rating:** British Kitemarked to offer reliable resistance against physical and manipulation attacks.
- **Versatile Use:** Ideal replacement cylinder for PVCu, timber, and composite doors where single-sided key access is required.
- **Supplied with Keys:** Comes complete with 3 keys as standard.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
