Is Cylinder

Product Description

The Yale AS Series Euro Profile Key & Turn Cylinder is designed to provide robust resistance against common cylinder attack methods. Offering TS007 1-star security, this 6-pin replacement cylinder is ideal for PVCu, timber, and composite doors requiring a high level of physical and manipulation protection.

With its convenient thumbturn design, this cylinder allows for quick and easy locking or unlocking from the inside without needing a key, making it excellent for both daily convenience and emergency escape. It features advanced protective elements that strengthen the cylinder, making it harder to grip and highly resistant to snapping, bumping, picking, and drilling. It is also Secured by Design (Police approved specification) and tested to BS EN 1303:2005.

This cylinder is available in multiple overall lengths (70mm and 80mm), internal/external profiles, and finishes including Polished Brass and Nickel Plated. Please select your required size, finish, and specification from the options below.

Technical Specifications

- **Brand:** Yale
- **Series:** AS Series
- **Cylinder Type:** Euro Profile Key & Turn (Thumbturn)
- **Mechanism:** 6-Pin
- **Security Rating:** TS007 1 Star
- **Standard:** Tested to BS EN 1303:2005
- **Secured by Design:** Yes (Police approved)
- **Keys Supplied:** 3 keys
- **Keying:** Keyed to differ
- **Overall Lengths Available:** 70mm and 80mm (choose from options below)
- **Finishes Available:** Polished Brass and Nickel Plated (choose from options below)

Key Features

- **Snap Resistant Design:** Strengthened construction with grip deflectors to defend against lock snapping.
- **Multi-Attack Protection:** Engineered to resist bumping, picking, drilling, and screw attacks.
- **Convenient Thumbturn:** Allows quick locking and unlocking from the inside without a key, ideal for emergency egress.
- **Versatile Application:** Suitable as a high-security replacement cylinder for PVCu, wood, and composite doors.
- **10-Year Guarantee:** Backed by Yale's 10-year mechanical guarantee for long-term peace of mind.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
