Specification Summary

Brand	Yale
Product type	Rim Cylinders

Product Description

The Yale X5 X-TECH Rim Cylinder is a high-security 6-pin replacement cylinder designed to upgrade or replace existing rim cylinders on any brand of nightlatch. Engineered to resist common attack methods, this cylinder provides robust security for external doors. It features anti-pick, anti-drill, and anti-saw protection with hardened pins, offering peace of mind for your home or business.

This rim cylinder is fully approved to British Standards, carrying the TS007 1-Star rating and BSI Kitemark. It is also Secured by Design (Police preferred specification) approved, ensuring it meets rigorous security standards. Suitable for doors between 38mm and 57mm thick, the Yale X5 is easy to install and comes in a classic polished brass finish. It is supplied with two keys as standard and offers over 100,000 key combinations for maximum security.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
