Product Description

The Yale Y112 Series Disc Tumbler Long Shackle Cast Iron Padlock is a robust and reliable security solution designed to protect your property. Constructed with a heavy-duty cast iron body and a hardened steel shackle, this padlock offers strong resistance against cutting and physical attacks.

Equipped with a secure disc tumbler locking mechanism, it is designed to resist picking and tampering. For added security and convenience, the padlock is key retaining, meaning the key cannot be removed while the lock is open, ensuring it is never left unlocked by accident.

This padlock is available in a range of body widths from 30mm to 50mm, with varying shackle diameters, depths, heights, and clearances to suit your specific security needs. Please select your preferred size and specifications from the options below. Each padlock comes supplied with three keys.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
