Specification Summary

Brand	Yale
Product type	Open Shackle

Product Description

The Yale Y120B Brass Padlock features a solid brass body with a sleek chrome finish, combining classic durability with modern aesthetics. Designed for outdoor use, this padlock is ideal for securing garden sheds, gates, and other high-value outdoor items. It is equipped with a tough boron steel shackle that offers superior resistance against cutting attacks.

To ensure reliable security, the padlock has been rigorously tested to EN 12320:2012 standards, proving its resistance against pulling, twisting, and cutting of the shackle. It also features a double ball locking mechanism for added protection against physical attacks, alongside a secure 5-pin cylinder. With up to 96 hours of corrosion resistance testing and a cycle test of 10,000 operations, this padlock is built to withstand harsh weather conditions and provide long-lasting performance. It is supplied complete with three keys.

Technical Specifications

- **Body Width:** 50mm
- **Body Height:** 47mm
- **Body Depth:** 17mm
- **Shackle Diameter:** 7mm
- **Horizontal Clearance:** 27mm
- **Vertical Clearance:** 28mm
- **Material:** Brass with chrome plated finish
- **Shackle Material:** Boron steel
- **Mechanism:** 5-pin cylinder
- **CEN Rating:** 2
- **Standard:** Tested to EN 12320:2012
- **Keys Supplied:** 3
- **Weight:** 325g

Key Features

- **Boron Steel Shackle:** Offers superior resistance to cutting and sawing attacks.
- **Double Ball Locking:** Provides extra security against pulling and twisting forces.
- **Corrosion Resistant:** Rigorously tested up to 96 hours to withstand outdoor weather conditions.
- **High Durability:** Tested to 10,000 opening and closing cycles for reliable, long-lasting operation.
- **Sleek Protection:** Solid brass body with a protective chrome finish for a modern, clean look.
- **Supplied with 3 Keys:** Ready to use straight out of the box with multiple keys included.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
