Specification Summary

Brand	Yale
Product type	Closed Shackle

Product Description

The Yale Y121B Closed Shackle Brass Padlock is a high-security, weatherproof locking solution designed to protect your valuable outdoor possessions. Featuring a solid brass body encased in a heavy-duty, black protective cover, this padlock is engineered to withstand harsh weather conditions and has been tested for up to 96 hours of corrosion resistance.

Its closed shackle design is constructed from tough boron steel, offering maximum resistance against cutting, twisting, and pulling attacks. Rigorously tested to EN 12320:2012 standards, this padlock delivers reliable security for gates, sheds, garages, and other high-value outdoor applications. Equipped with a 5-pin cylinder mechanism and supplied with three keys, it has also been cycle-tested up to 10,000 times to ensure smooth, long-lasting operation.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** Y121B/50/132/1
- **Body Width:** 50mm (57mm overall width including cover)
- **Body Height:** 82.2mm
- **Body Depth:** 24mm
- **Shackle Diameter:** 9.5mm
- **Horizontal Clearance:** 24mm
- **Vertical Clearance:** 20.3mm
- **Body Material:** Solid Brass with black protective cover
- **Shackle Material:** Boron steel
- **Cylinder Mechanism:** 5-pin
- **Keys Supplied:** 3
- **Standards & Ratings:** Tested to EN 12320:2012 (CEN Grade 3)
- **Weight:** 360g

Key Features

- **Closed Shackle Protection:** Shrouded boron steel shackle offers superior resistance against cutting, cropping, and pulling attacks.
- **Weatherproof Design:** Solid brass body wrapped in a heavy-duty black cover protects the lock from harsh outdoor environments.
- **Corrosion Resistance:** Tested up to 96 hours for corrosion resistance to ensure long-lasting outdoor durability.
- **Attack Tested:** Certified to EN 12320:2012 standards for proven security against physical force.
- **Smooth Operation:** Cycle-tested up to 10,000 operations for reliable opening and closing performance.
- **Keyed Security:** Features a secure 5-pin cylinder mechanism and comes complete with 3 keys.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
