Specification Summary

Brand	Yale
Product type	Open Shackle

Product Description

The Yale Y222B 35mm High Security Trailer Padlock (Pack of 3) offers a reliable and convenient security solution for outdoor applications. This handy triple-pack is keyed alike, meaning you can open all three padlocks using any of the three supplied keys, eliminating the hassle of carrying multiple keys on your keyring.

Engineered specifically for harsh outdoor environments, these padlocks are ideal for securing trailers, caravans, gates, and garden sheds. Each lock features a robust protective cover over the body and shackle, alongside a dedicated keyhole cover to shield the internal mechanism from water, dirt, and grime. The rubberised exterior also helps to prevent unsightly scratches on your vehicle, trailer, or property.

For robust physical security, the padlocks are built with a hardened steel shackle and a 5-pin cylinder with double ball locking. They have been rigorously tested to BS EN 12320:2012 standards to resist common attack methods, including cutting, pulling, and twisting. With up to 120 hours of corrosion resistance testing and a 10,000-cycle performance test, these Yale padlocks are built to withstand the elements.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** Y222B/35/122/3
- **Pack Quantity:** 3
- **Keys Supplied:** 3 (Keyed Alike)
- **Body Width:** 35mm
- **Width:** 40mm
- **Shackle Diameter:** 5mm
- **Finish:** Black
- **Standards:** BS EN 12320:2012
- **Weight:** 335g

Key Features

- **Keyed Alike Convenience:** One key opens all three padlocks in the pack, reducing keyring clutter.
- **Weatherproof Protection:** Features a protective cover on the lock body and shackle, plus a keyhole cover to seal out the elements.
- **Corrosion Resistant:** Tested up to 120 hours for corrosion resistance to ensure reliable outdoor performance.
- **High Security Shackle:** Hardened steel shackle resists cutting, pulling, and twisting attacks.
- **Double Ball Locking:** 5-pin cylinder with double ball locking mechanism for enhanced security.
- **Scratch Prevention:** Rubberised exterior protective cover helps prevent scratches to trailers, caravans, and gates.
- **Extensively Tested:** Tested to 10,000 opening and closing cycles to guarantee long-term reliability.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
