Specification Summary

Brand	Yale
Product type	Non Deadlocking

Product Description

The Yale Y3 Non-Deadlocking Nightlatch is a stylish, contemporary alternative to the classic Yale 77 traditional nightlatch. Designed to offer modern aesthetics without compromising on standard security, it is an ideal retro-fit replacement that requires no additional chiselling or door modification when replacing an existing Yale 77.

This nightlatch features a 60mm backset and is suitable for both left and right-handed, inward-opening doors. It includes an internal snib button, allowing you to easily deadlock the latch from the inside or hold the latch back to prevent the door from locking behind you. Supplied with a secure 5-pin Yale 1109 rim cylinder and two keys, it also features anti-bump protection for added peace of mind.

The Yale Y3 is available in a selection of finishes to match your door hardware. Please choose your preferred case finish (including Black, Brasslux, or Polished Chrome) and cylinder finish (Polished Brass or Chrome Plated) from the options below.

Technical Specifications

- **Backset:** 60mm
- **Cylinder System:** Yale 5 Pin (1109 rim cylinder)
- **Keys Supplied:** 2
- **Case Finish:** Black, Brasslux, or Polished Chrome (please choose from the options below)

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
