Specification Summary

Brand	Yale
Product type	Key Safe

Product Description

The Yale Y500 Key Safe is a secure, wall-mounted combination key box designed to keep spare keys safe and easily accessible. Ideal for sharing access with family members, carers, cleaners, or contractors, this key safe eliminates the need to hide keys under a doormat or flowerpot.

Constructed with a strong, reinforced die-cast body, the Y500 features a weather-resistant outer case and a protective shroud to shield the combination dials from the elements. It operates via a user-resettable 4-digit combination lock, allowing you to change the code as often as required for peace of mind.

Designed for both interior and exterior use, the safe is surface-mounted with concealed fixings, ensuring it cannot be easily tampered with or removed from the wall once locked. The hinged access panel opens smoothly to reveal an internal compartment capable of holding up to 5 cylinder keys or 2 mortice keys.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** Y500-187-1
- **Lock Type:** 4-digit resettable combination
- **Mounting:** Surface mounted
- **Finish:** Silver
- **Width:** 12.7cm
- **Weight:** 710g
- **Capacity:** Holds up to 5 cylinder keys or 2 mortice keys

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
