Specification Summary

Brand	Yale
Product type	Ground Anchor

Product Description

The Yale Y730B High Security Steel Anchor is a robust and versatile security solution designed to provide a reliable anchoring point for your valuable outdoor possessions. Constructed from solid steel with a protective black coating, this anchor is built to withstand both physical tampering and harsh weather conditions. It has been rigorously tested for up to 96 hours of corrosion resistance, making it an excellent choice for outdoor installations on walls or floors.

This compact 60mm anchor is ideal for securing items such as bicycles, motorbikes, ladders, and garden equipment. It is designed for seamless compatibility with Yale's Y120, Y125, and Y220 padlocks, allowing you to create a highly secure locking system. The anchor is supplied complete with all necessary fixing bolts, ensuring a straightforward and secure installation process. Whether mounted in a garage, shed, or on an external wall, the Yale Y730B offers dependable peace of mind.

Technical Specifications

- **Brand:** Yale
- **Part Number:** L32309
- **Manufacturer Reference:** Y730B/60/23/1
- **Barcode:** 5052847100134
- **Material:** Steel
- **Finish:** Black
- **Diameter:** 60mm
- **Shackle Diameter:** 15.2mm
- **Weight:** 300g
- **Fixings:** Included

Key Features

- **Weather Resistant:** Tested up to 96 hours for corrosion resistance, making it ideal for outdoor use in all weather conditions.
- **Solid Steel Construction:** Heavy-duty steel build provides strong resistance against tampering and physical attack.
- **Versatile Mounting:** Can be installed on either walls or floors to secure ladders, gates, motorbikes, and bicycles.
- **Padlock Compatibility:** Ideally suited for use with Yale Y120, Y125, and Y220 padlocks.
- **Complete Kit:** Supplied complete with fixing bolts for immediate and secure installation.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
