Specification Summary

Brand	Yale
Product type	Open Shackle

Product Description

The YALE YE3B Aluminium Open Shackle Padlock is a lightweight yet secure locking solution designed primarily for indoor use. Featuring a quality aluminium body and a robust steel shackle, this padlock offers a reliable deterrent for securing lockers, toolboxes, and general storage. It is equipped with a 5-pin cylinder and a double locking mechanism for enhanced security.

For added convenience, the padlock features a snap-locking shackle, allowing you to lock it securely without needing to use the key. It has been rigorously tested, achieving up to 48 hours of corrosion resistance and undergoing durability testing of up to 10,000 cycles to ensure long-lasting, smooth operation. Each padlock is

supplied with 3 keys and is keyed alike.

This padlock is available in multiple body widths (32mm or 38mm) and finishes (Black or Pink), with weights ranging from 70g to 90g. Please choose your preferred size, finish, and specification from the options below.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada**, **Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
